FOR IMMEDIATE RELEASE:

July 18, 2013

TEMPORARY WATER SERVICE INTERRUPTION SCHEDULED FOR LAKE LINGANORE AT EAGLEHEAD CUSTOMERS

FREDERICK, MD – In order for the Lake Linganore Association to repair a storm water culvert pipe that created a sinkhole on Eaglehead Drive, Frederick, Md., water service will be temporarily shut down on Tuesday, July 23, from approximately 9:00 p.m. – 4:00 a.m. on Wednesday, July 24, for customers in the Lake Linganore at Eaglehead area, according to the Frederick County Division of Utilities and Solid Waste Management (DUSWM).

The work will be performed by a contractor working for the Lake Linganore Association to install a temporary by-pass on the water main within Eaglehead Drive.

The water service interruption is scheduled during hours that will cause less inconvenience for approximately 965 water service customers in the Audubon Terrace, North Shore, Village of Balmoral, Village of Coldstream and Village of Meadows areas.

As a result of this activity, customers in this vicinity may experience lower than normal water pressure and a temporary discoloration of their water. If this happens, residents should run the water for a few minutes to clear the pipes and are cautioned to check for clear water before doing laundry or other water-related activities.

DUSWM Director Kevin Demosky said, "We apologize for the inconvenience this temporary water interruption will cause our customers in the Lake Linganore at Eaglehead area. Notices are being mailed to each address that will be affected, along with electronic sign boards at the main entrance as an additional notification. We are also working closely with the Lake Linganore Association to distribute information to residents."

In case of rain, the work will be performed on Wednesday, July 24, during the same hours.

For more information about the water service interruption, contact the division at 301-600-1825.
